aryas-ai.vercel.app

Summary

B.Tech CSE (AIML) student with strong fundamentals in **data structures, algorithms, and object-oriented programming**. Experienced in **Python, Go, and Java**, with practical exposure to **machine learning, backend development, and system design**.

Experience

Summer Intern – Nataraj Services Oct 2023 – Dec 2023

- Developed a payroll system for government employees using **C# and .NET 3.5**, automating salary management, allowances, deductions, and tax calculations.
- Scaled the solution across multiple head offices and sub-offices in **Chhatrapati Sambhajinagar ZP**, streamlining payroll processes and improving efficiency.
- Collaborated with team members to ensure accuracy and compliance with government regulations.

Projects

VerifyMD

Engineered an end-to-end **AI diagnostic assistant** for orthopedic X-ray analysis, combining computer vision with conversational retrieval. Designed and trained a **ResNet-based CNN achieving 93% accuracy** to identify clinically relevant regions. Built a **vector-backed medical knowledge system** using **FAISS** and integrated **LLM-driven reasoning** via **Gemini + LangChain** to enable evidence-grounded clinical queries.

AINux

Architected an **AI-native Linux environment** that embeds an intelligent agent directly into the operating system to automate developer workflows. Built a **high-performance Go systems core** with a **PyTorch-based decision agent** communicating over **Unix socket IPC**. Implemented **Git-based state snapshotting** to record, audit, and replay OS-level actions on Debian.

Education

Aug 2024 – Present **Bachelor of Technology in Computer Science (AIML)** **CGPA: 9.08**
Vishwakarma Institute of Technology, Pune

Jun 2021 – Jun 2024 **Diploma in Artificial Intelligence and Machine Learning (91.53%)**
Government Polytechnic, Chhatrapati Sambhajinagar

Skills

Languages:	C, C++, Java, Python
ML / AI:	Scikit-learn, PyTorch, LangChain, Vector Databases
Backend / Systems:	Object-Oriented Programming, Unix/Linux, IPC
Data:	Pandas, NumPy, Matplotlib
Databases & Tools:	MySQL, Git
